Transit Oriented Development: Possibilities for a New Orleans to Baton Rouge Commuter Rail Corridor

**Wednesday, April 14, 2010 | Port of New Orleans
1350 Port of New Orleans Place, New Orleans**

Presenters

John L. Renne

Early Research Professor, University of New Orleans
Managing Director, The TOD Group, LLC, New Orleans, LA

Dr. Renne will present on national trends and the importance of TOD in the future of America and how it could lead to a sustainable future for Louisiana. His presentation will be based on his recent book, 'Transit Oriented Development: Making It Happen' (2009).

Skip Smallridge

Principal
Crosby Schlessinger Smallridge, LLC, Boston, MA

Mr. Smallridge will present on how TOD can breathe new life into downtowns. He will illustrate examples of how planning for urban design around train stations can result in exciting, innovative and vibrant places.

Elizabeth "Boo" Thomas

President and CEO
Center for Planning Excellence, Baton Rouge, LA

Ms. Thomas will discuss her work in planning for a sustainable future for the New Orleans and Baton Rouge areas through Louisiana Speaks, a post-Katrina statewide planning effort. She will also present on a new project with the Ford Foundation and Smart Growth America to examine the sustainability benefits for a commuter rail line from New Orleans to Baton Rouge.
