

Transit Oriented Development

Making it Happen

Edited by Carey Curtis, Curtin University of Technology, Australia, John Renne, University of New Orleans, USA and Luca Bertolini, University of Amsterdam, The Netherlands

Transport and Mobility

June 2009

234 x 156 mm

272 pages

Hardback

978-0-7546-7315-6

£60.00

Includes 6 figures, 29 Line Drawings and 21 Maps

This volume brings together the different stakeholders and disciplines that are involved in the conception and implementation of TOD to provide a comprehensive overview of the realization of this concept in Australia, North America and Europe. While TOD systems have been implemented widely, there are still strong vested interests (property, community, state) which encourage the maintenance of the car-dependent urban form.

The book firstly identifies these various challenges and shows, through a range of international case studies, successful ways of addressing these. It provides a range of insights into how to move from TOD policy to regulation; urban design solutions; issues for local governance; the need to work with community; and the commercial realities of TOD. It shows how many barriers have been overcome, while others remain and new ones are emerging. The book draws together the key principles that make TOD happen, addressing both substantive issues (what needs to be done, and when) and procedural issues (who needs to be involved, and how)

Contents

Part 1: The Context for Transit Oriented Development; Introduction Luca Bertolini, Carey Curtis and John Renne; Planning for transit oriented development - strategic principles Peter Newman; Public transport and sustainable urbanism: global lessons Robert Cervero. Part 2 Implementation: Tools: Implementing transit oriented development through regional plans: a case study of Western Australia, Carey Curtis; Rail friendly transport and land-use policies: the case of the regional metro system of Naples and Campania, Ennio Cascetta and Francesca Pagliara; Retrofitting TOD and managing the impacts: the case of Subi Centro, Andrew Howe, Geoff Glass and Carey Curtis; From concept to projects: Stedenbaan, The Netherlands Verena Balz and Joost Schrijnen; An Asian model of TOD - the planning integration in Singapore Perry Pei-Ju Yang and Seng How Lew. Part 3: Implementation: Processes: Portland's TOD evolution: from planning to lifestyle, G.B. Arrington; Successful delivery mechanisms: coordinating plans, players and action, Mike Mouritz and Louise Ainsworth; Promoting transit oriented development at the local level: the opportunities and challenges for local governments, Janet Edghill, Annette Kroen and Jan Scheurer. Part 4: Implementation: Community: Transit oriented For all: delivering mixed-income housing in transit served neighbourhoods, Shelley Poticha and Jeff Wood; There goes the neighbourhood? Or saving the world? Community views about transit orientated development, Janet Rice. Part 5: Implementation: Markets: The property sector as an advocate for TOD: the case of South East Queensland, Bruce James; The commercial reality of TOD in Australia, Warwick Hemsley; Developing TOD in America: the private sector view, Marilee A. Utter; Transit-oriented development in Tokyo; the public sector shapes favourable conditions, the private sector makes it happen, Paul Chorus. Conclusion: Making Tod Happen: Measuring the success of transit oriented development, John L. Renne; TODs for a sustainable future: key principles to 'make TOD happen', Luca Bertolini, Carey Curtis and John Renne; References.
